

# About Graphite Materials GmbH

For over 25 years, the Graphite Materials GmbH has been a recognized specialist in customized system solutions made from carbon fiber and graphite materials for high-temperature applications.

At the core of the company's expertise lies engineering excellence – seamlessly combining in-depth material science with extensive experience in advanced machining technologies. As an ISO-certified company and a sister company of GMElectrode GmbH, Graphite Materials covers the entire value chain, from material selection and design to precision manufacturing.

By leveraging the latest technologies and adhering to the highest standards of quality and sustainability, Graphite Materials delivers innovative and reliable solutions tailored to customer needs. From custom components to small- and large-scale production, the company continues to set benchmarks in the graphite industry.
